## PROJECTS

### • Food Court UI/UX Design - Figma

Designed an interactive Food Court application prototype to enhance the digital ordering experience. Created wireframes, user flows, and high-fidelity mockups focusing on easy navigation and modern UI. Applied UI/UX principles, color theory, and typography to deliver an intuitive and visually appealing design.

### • JSP Modern UI Web Application (Jetty Runner Deployment)

Developed a multi-page JSP web application featuring a modern, responsive user interface using Bootstrap 5 and custom CSS. Implemented structured navigation across Home, About, Services, and Contact pages, following formal UI/UX design principles. Integrated Jetty Runner to streamline development and enable lightweight, installation-free deployment.
